Location: Coimbatore, India

OBJECTIVE

Passionate about leveraging programming and artificial intelligence to develop innovative solutions for real-world challenges. Skilled in Java and hands-on project development, with a strong focus on continuous learning, problem-solving, and creating meaningful impact through technology

SKILLS

- **Technical Skills:** Java script , Java, HTML, CSS, Raspberry Pi, Digital Electronics
- **Soft Skills:** Teamwork, Communication, Problem-solving

WORK EXPERIENCE

Intern | CLD Automation

Jan 2026 - Feb2026

- Developed foundational skills in Java through practical, hands-on application and project-based learning to build robust back-end logic
- Explored essential fundamentals of front-end development to design and enhance intuitive, user-Centred digital experiences
- Participated in real-time workflows and cross-functional team collaboration to support and accelerate successful project delivery

PROJECTS

AI Customer Support Analyzer | VSB College of Engineering Technical Campus

June 2026

- Developed a real-time support ticket Analyzer using Fast API and Groq's Llama 3.3 model to instantly evaluate customer sentiment, urgency, and churn risk
- Built REST APIs and integrated SQLite database to process, store, and track customer complaints for efficient analysis
- **Tools used:** Fast API, Python, Groq (Llama 3.3), SQLite, JavaScript

Real-Time Light Pulse Frequency and Total Count Measurement using Raspberry Pi | CLD Automation

Jan 2026

- Developed a system to detect and measure light pulse frequency using sensors and Raspberry pi
- Implemented Python-based signal processing to calculate pulse frequency and maintain an accurate real-time pulse count.
- **Tools used:** Python, Raspberry Pi, Photodetector Hardware, Linux/Raspberry Pi OS

ACHIEVEMENTS

- Presented a paper on “**Spectrum Allocation Challenges and Intelligent Management in 5G Networks**” at Velammal Engineering College Feb 2026
- Delivered a presentation on “**Drowsiness Detection Using Open CV**” at KPR College of Engineering Oct 2026

CERTIFICATION

- Fundamental of Java | **Infosys Springboard** April 2025

ACHIEVEMENTS:

Patent Published:

“AI-Based Smart Risk Assessment for Resilient Emergency Alert Network”

(Application No. 202641045858 A), Indian Patent Office April 2026

EXTRACURRICULAR ACTIVITIES

- **Event Coordinator, Futuronix:** Volunteered for the Futuronix cultural fest by managing student logistics and handling certificate verification and distribution
- **Contestant, Singing Competition:** Participated and performed in the college musical cultural events, showcasing strong public presence and creative talent

EDUCATION

- VSB College of Engineering Technical Campus 2023 – Present
B.E. Electronics and Communication Engineering - CGPA: 8.5 Coimbatore, Tamil Nadu
- P.K.D. Matric Higher Secondary School 2022 - 2023
X11- Percentage: 77% Coimbatore, Tamil Nadu

DECLARATION

I hereby declare that the above-mentioned information is true to the best of my knowledge and belief.
